

## MRS. PITZEL TELLS HER PITIFUL TALE

### PATHETIC SCENE IN COURT YESTERDAY.

The Bereaved Woman Tells of the Disappearance of Her Husband and Children and the Part Played in the Tragedy by Holmes—The Progress of the Trial.

Philadelphia, Pa., Oct. 31.—Mrs. Carrie Alice Pitzel testified in the Holmes murder case yesterday. She was obliged to interrupt her pitiful narrative at frequent intervals to accept spoonfuls of medicine from the trained nurse who attended her. In a voice broken with grief she told the whole distressing story. How her husband was spirited away from her and murdered out of sheer greed of gain; how she bade her little ones good-by, confiding them to the care of the man Holmes in all trustfulness, little thinking that when next she should set her eyes on them the two little girls would be lying side by side on the marble slab of a morgue, cold in death, and the boy a parcel of moldered bones. Between her bitter sobs she related every detail—from the first meeting with Holmes almost up to today—and so affecting was the story that even District Attorney Graham, long used to tales of misery and distress, paused in the examination to wipe away a furtive tear. Throughout it all Holmes sat unmoved. Indeed, once or twice, as some statement from her lips struck a chord in his breast, a malicious sneer played around his thin and bloodless lips. But never once did the woman look toward him.

O. LaForrest Perry, assistant to the president of the Fidelity Mutual Life association, was then called. This is the company that was swindled out of the \$10,000 for which Pitzel's life was insured, and it was Perry who began the investigation into the conspiracy. After Pitzel's death and the payment of the money the matter was closed until a letter was received by President Fouse, of the insurance company, from Superintendent of Police Harrigan, of St. Louis. This contained the declaration of Hedspeith, the train robber, that while in jail in St. Louis he had overheard Holmes and Pitzel talking of forming a conspiracy to defraud an insurance company out of \$10,000 by the substitution of a corpse for Pitzel. On the information thus obtained a warrant was sworn out for Holmes on the charge of conspiracy, and upon this he was arrested in Boston.

When arrested Holmes said he did not want to go to Fort Worth, but that he would go without requisition to Philadelphia, where he defrauded the Fidelity insurance company out of \$10,000. This was entirely voluntary on Holmes' part. Shortly after noon Inspector Hall of the Toronto police department arrived with Mr. Ryves, who is expected to swear that he lent Holmes the spade with which he dug the graves for the Pitzel girls. Following this Mrs. Pitzel gave her testimony.

At 5:30 a recess was taken. The court reassembled at 7 o'clock, and during the few moments that elapsed before the business of the case was resumed Holmes sat in the dock reading "Stephen's Digest of the Law of Evidence." At 7:15 o'clock Mrs. Pitzel's trying ordeal was resumed. The cross examination was continued until 8:15, but developed nothing to controvert her evidence in chief. District Attorney Graham then showed her the crayon portrait of Pitzel, and she said: "Yes, that is a good picture of my husband as he left home."

This concluded Mrs. Pitzel's testimony, and at 8:30 o'clock she gave way for her daughter, Jeanette—"Dessa." Her testimony was largely corroborative of that given by her mother concerning the departure of the children and the subsequent travels of Dessa and her mother under Holmes' guidance to the various cities named.

### BATTLESHIP DEFECTIVE.

Alarming Reports About the New Cruiser Indiana.

Washington, Oct. 31.—It is stated on tolerably reliable authority that considerable alterations will have to be made in the equipment of the battleship Indiana before she can be ready for active service. It has been discovered that with her full equipment the armor belt, designed to protect the ship's water line, would be submerged. Instead of being three feet above water the belt would be three inches below. The navy department declares that there is nothing seriously the matter with the Indiana, but appears to be certain that the boat will not be able to carry her full armament. Secretary Herbert says he will have the vessel dry docked and examined as soon as she is officially turned over.

### To Decide Alaska's Boundary Line.

Washington, Oct. 31.—The report of the joint commissioners appointed under the convention made in 1892 between Great Britain and the United States for the survey of the territory of the United States and Canada adjacent to the boundary line dividing Alaska and Canada will be made in the course of the next three months. General Duffield, chief of the coast and geodetic survey, is the commissioner on behalf of the United States, and D. F. King serves in a like capacity for Great Britain.

### BEHRING SEA CLAIMS.

Negotiations with Canadian Representatives Proceed Satisfactorily.

Washington, Oct. 31.—Secretary Olney was in conference again for more than an hour yesterday with Sir Julian Pauncefote and his Canadian advisers, Sir Mackenzie Bowell and Sir Charles Tupper, respecting the arrangement of some means of adjusting the British Behring sea claims. After the discussion the parties dispersed without fixing any day for another meeting. No statement of the results of the discussion so far can be elicited at the state department, but there is little doubt that it related not directly to the settlement of the claims just now, but rather to the formation of a commission to examine carefully all the claims and recommend means of settlement. The British representatives feel entirely satisfied with their reception by Secretary Olney and consider that the negotiations are proceeding satisfactorily.

### CULBERSON IS MAD.

Governor of Texas Reprimands Sheriff Smith of Tyler.

Austin, Tex., Oct. 31.—Gov. Culbertson yesterday sent a telegram to Sheriff Smith, of Tyler, anent the burning of the negro there Tuesday. The governor informed the sheriff that it was his duty to protect the prisoner at whatever cost, and demands of him an explanation as to why he did not do it. He further says that having failed in enforcing the laws in this instance, he trusts the sheriff will permit nothing to deter him from the performance of his duty in promptly arresting all participants in the mob and bringing them before an examining court at once. The governor adds that, in case the sheriff cannot do this unassisted, he will take pleasure in lending executive assistance at any and all times, but the mob must be apprehended at once.

### Sensation in Spring Valley Case.

Princeton, Ill., Oct. 31.—Raymond Jordan, one of the defendants in the case of the thirteen Spring Valley men charged with assaulting the colored population of that city, caused a sensation in the trial of the case yesterday by turning state's evidence and later by notifying Judge Stupp in court that he wished to plead guilty to the third count of the indictment, the maximum penalty for which is a penitentiary offense. Jordan placed a written confession in the hands of the state's attorney. He tells of the assaults and names Paul Yerdy and John Tista, two more of the defendants now on trial, as being members of the mob. He also accused Mayor Delmargo of knowing the designs of the mob. The time of the court yesterday was taken up in examining veniremen and one person was accepted, making the total number now accepted eleven.

### Made One Organization.

Terre Haute, Ind., Oct. 31.—At the Baptist State convention yesterday the proposal for a union of the four Baptist bodies going to make up the convention was adopted and the association will hereafter be known as the Baptist State convention. This unites the church, Sunday school, B. Y. P. U., and mission interests all in one organization. A committee was appointed to secure its incorporation. Rev. Albert Ogle, of Indianapolis, superintendent of state mission work, made a report. He said there were still twenty-four county seats and seventy-five towns and villages of from 500 to 1,500 population in the state without Baptist churches. The work was going vigorously, however. The convention elected the Rev. C. M. Carter, Lafayette, president.

### Population of Iowa Cities.

Des Moines, Iowa, Oct. 31.—Returns compiled by the state census bureau show that there are eighty-two cities in Iowa having a population of 2,000 or more. Dubuque, which is now in second place, has a gain of 10,263, the largest of all. Des Moines' gain of 6,266 is the next largest. Sioux City has lost 10,435, or 27.6 per cent of the people she is supposed to have had in 1890. That city has dropped down from the second largest to the fourth, and Burlington is crowding her hard for that position.

### Lord Salisbury on Free Trade.

London, Oct. 31.—The Marquis of Salisbury made a speech at Walford yesterday to a large audience. During the course of his remarks the prime minister referred to the agricultural question, and said: "Since the repeal of the corn laws we have had the strongest cause to lament that, though the protectionists resisted, their warnings had not been listened to more carefully. The repealers laughed at the idea of its injuring husbandry, but a lowering of prices resulted and free trade has almost killed husbandry in several counties."

### Educators at Atlanta, Ga.

Atlanta, Ga., Oct. 31.—Higher and technical education was discussed at yesterday's session of the educational congress. John F. Goucher, president of the Woman's College of Baltimore, spoke on colleges for women, and Halsey C. Ives, director of the Museum of Fine Arts of St. Louis, read a paper on the relations of schools and museums of art to the people. A paper was read by William M. Thornton, chairman of the faculty of the University of Virginia, on the material development of the South as related to the progress of scientific and technical education.

All are expected to recover. The ruins took fire, but the main buildings escaped damage. The property loss is near \$5,000.

### MONUMENT IS A SHAM.

Pile Erected to the Memory of Lincoln Must Be Torn Down.

Springfield, Ill., Oct. 31.—The Lincoln monument, at Oak Ridge cemetery, which has for the past twenty years been admired by thousands of people from all over the world, will have to be repaired, and, besides, its construction is such that it will not admit of repair. Instead of being a substantial pile of solid granite, as an external appearance would indicate, it is a rickety structure of brick, veneered over with slabs of granite. This is the verdict of the state trustees, who have charge of the monument. During the last session of the general assembly the historic pile was turned over to the state; \$30,000 was appropriated for repairs, and a law passed making the governor, state treasurer, and state superintendent of instruction trustees of the monument, to care for it and make the much-needed repairs. When the trustees set about to arrange for the repairs they discovered that the magnificent monument erected to the memory of "Honest Old Abe" was a sham and a fraud. What appeared to be huge blocks of granite were nothing but thin slabs laid over brick.

### Against New York State Democracy.

New York, Oct. 31.—The decision of Judge Beach a few days ago that the state democracy could not legally be given a separate column in the blank ballot surmounted by a rooster as its emblem was affirmed by the general term of the supreme court yesterday. The judges said in their opinion the new law was intended to develop simplicity. That it intended a single column for a single party was also evident. The state democracy made no nominations for State officers, consequently the police commissioners ignored the law in making up the ballot.

### The World's Grain Markets.

New York, Oct. 31.—Special cable and telegraphic dispatches to Bradstreet's, covering principal points of accumulation, indicate the following changes in available stocks last Saturday, as compared with the preceding Saturday: Available Supplies—Wheat—United States and Canada, east of the Rockies, increase, 5,251,000 bushels; afloat for and in Europe, increase, 864,000 bushels. Twenty Six Thousand Men Reported to Have Gathered in Armed Resistance to the Authority of the Sultan of Turkey—Situation Very Grave—Reports of the Massacre Confirmed.

Constantinople, Oct. 31.—The most alarming news yet received from Armenia was made public here yesterday. It is stated that the situation is so grave that in the Zeitout mountains and in that district there are 26,000 Armenians in open revolt against the rule of the sultan. ### Fatal Train Wreck in Iowa.

Iowa Falls, Iowa, Oct. 31.—A serious accident occurred on the Burlington, Cedar Rapids & Northern Road at Hardy Station at 5 o'clock yesterday. No. 63, Sioux Falls express, had orders to pass a freight extra at that point. The freight had started on to the sidetrack but had not cleared the line when the passenger crashed into it. Freight Conductor Dan Gammon, of Estherville, Iowa, was fatally injured, and Engineer Permetter and Fireman Wagner of the passenger were seriously injured. Some of the passengers were injured, but it is believed none seriously.

### Indiana Village Damaged.

Evansville, Ind., Oct. 31.—A fire in Blankenburgh yesterday resulted in the destruction of several thousand dollars' worth of property. It originated in the grocery store of A. C. Pollard and spread to the residences of John Kohl, Carlos Wilson and an unknown negro. Pollard's loss will amount to \$2,500, with \$800 insurance. Kohl's loss is \$2,000, with insurance of \$900. Wilson's loss is about \$1,800, with probably \$600 insurance. The damage to the other place is about \$300. There are no water pipes in Blankenburgh, hence the almost total loss of the property.

### Massachusetts Town Scorching.

Miller's Falls, Mass., Oct. 31.—Fire, which started in a Main street livery stable at 10:30 last night, swept away eight buildings, including a big hotel, on one side of the street in the business section and jumped across the street and destroyed the buildings on that side. The fire department early proved utterly inadequate and help was summoned from Greenfield and Northampton. The fire burned itself out about 2 a. m. The total loss will reach about \$25,000. Insurance not known.

### Both Sides Make Concessions.

Denver, Col., Oct. 31.—At the conference with President Jeffery of the Rio Grande railroad the heads of labor organizations stated that the company was justified in discharging the telegraph operator whose case had been the cause of the meeting but asked that he be reinstated on account of extenuating circumstances. This President Jeffery agreed to.

### National Luther League.

Pittsburg, Oct. 31.—Over 500 young Lutherans gathered in the First English Lutheran church of this city yesterday for the purpose of organizing a National Luther League. ### Durrant Verdict Expected To-Night.

San Francisco, Cal., Oct. 31.—District Attorney Barnes yesterday began the closing argument on behalf of the state in the trial of Theodore Durrant. The court-room was crowded to its greatest capacity, and close attention was paid to the speaker. Judge Murphy will charge the jury this morning and a verdict is expected to-night.

### Two Hundred Men Fight Fire.

Jackson, Mich., Oct. 31.—Forest fires, which have been raging in Grass Lake township, Jackson county, have spread into the adjoining township of Waterloo, and advices are to the effect that 200 men are fighting the flames in order to save farm buildings. Over 500 acres of timber have so far been consumed.

### BIG FIGHT IS DEFERRED.

Gov. Clarke's Sheriff Captures Fitzsimmons at Texarkana.

Hot Springs, Ark., Oct. 31.—It was learned here last evening that Fitzsimmons had surrendered to the officials of the governor at Texarkana and goes to Little Rock, with Sheriff Hout in the company, and it is understood that Fitzsimmons will then be required to give a peace bond of \$5,000, the maximum amount of bond required. Being released, the inference is that he will come to Hot Springs. Corbett is at the Arlington hotel, in readiness for whatever may transpire. Carpenters have been busily engaged in constructing a twenty-four-foot ring at Whittington park, and when the fight takes place it will be beneath the big circus tent ordered a few days ago. Corbett announced his determination to remain here a month if necessary to meet his lanky antagonist. From advices received here it is understood Sheriff Hout and Fitzsimmons crossed the state line with Fitzsimmons in custody of Hout, and that when Sheriff Dillard appeared under orders of the governor he ignored the Garland county official's rights in the premises, and Fitzsimmons offered no resistance. All returned to Texarkana, whence they went to Little Rock.

If the fight takes place it will be at Hot Springs, but not to-day. Matters are in the hands of the Hot Springs Athletic association and its legal counsel. President Babcock of the association informed a newspaper correspondent that the fight would be brought off some time between November 1 and November 7 at Hot Springs.

The announcement from Little Rock that Gov. Clarke had placed the state militia under waiting orders produced no perceptible effect upon the leaders of the local sporting fraternity, who, by the way, are identical with the citizens' committee. Such a step on the part of the executive authorities had been expected and it surprised nobody. It is thought this action was taken to prepare for the emergency of Fitzsimmons' falling into the hands of Sheriff Hout's officers at Texarkana and being brought to this city.

### Women's Synodical Societies.

Peru, Ind., Oct. 31.—Yesterday's session of the Women's Synodical societies for the state of Indiana in this city was attended by 200 delegates from various parts of the state. The reports of the secretary and treasurer show a healthy condition of affairs. Eight hundred dollars was voted to the freedmen's work for the coming year, and \$300 to the miscellaneous fund of the Augusta (Ga.) school. In addition to this \$1,000 was voted to the day-school fund in Utah. The old officers were re-elected, with the addition of Maud Hixon of Indianapolis, corresponding secretary.

### Texas Bank Looted.

McGregor, Tex., Oct. 31.—The First National Bank of McGregor was looted yesterday morning about 2:30 o'clock. The thieves opened the outer door by the combination. To the inner steel chest dynamite was applied, completely wrecking the safe. The booty secured amounted to between \$10,000 and \$12,000 in paper and gold. All the silver was untouched and mutilated coins were scattered all over the floor. The bank is fully insured in the Fidelity and Casualty Company, and will suffer no loss. It is fully solvent and will continue business.

### Fifteen Hundred Delegates.

Des Moines, Iowa, Oct. 31.—The state convention of the Young People's Society of Christian Endeavor has turned out to be a bigger affair than was expected. The 1,500 accredited delegates are nearly all here, together with more than 1,000 visitors. After the praise service yesterday morning R. E. Towles was appointed secretary and the regular committees named. In the evening Dr. F. E. Clark, the originator of the movement, addressed 3,000 people who were crowded into Calvary Tabernacle.

### Woman's Board of Missions.

Mrs. G. B. Wilcox gave a review of the work in India, Ceylon, Japan and Mexico, and was followed by Miss Eva M. Swift, of Madura, India, in an urgent appeal for renewed effort. Miss Sarah Pollock reviewed the work in China.

### Capt. Sampson's Report.

Washington, Oct. 31.—In his annual report Capt. W. T. Sampson, chief of the naval ordnance bureau, submits estimates aggregating \$6,457,584 for the next fiscal year. Last year's estimate of \$500,000 for guns for the auxiliary navy is renewed. The wisdom of the department's declaration in favor of thirteen-inch guns for the new battleships is said to have been conclusively demonstrated.

### A. R. U. Strike Cases.

Washington, Oct. 31.—Attorney General Harmon yesterday made an argument in the United States supreme court in the case of W. H. Clune, Isaac Ross and Philip Stanwood vs. The United States. The plaintiffs in error were identified with the big strike in California in the summer of 1894, and are under sentence of eighteen months' imprisonment on the charge of conspiring to obstruct the United States mails.

## FOND DU LAC IS LEFT IN TOTAL DARKNESS

### LIGHTING WAR RESULTS IN REMOVAL OF LAMPS.

As the Gas Works are Being Repaired and Therefore Cannot Furnish Illumination the Town is in a Bad Way Nights—Veterans in a Fight at Milwaukee.

Fond du Lac, Oct. 31.—[Special]—Fond du Lac is in total darkness and is liable to remain in that condition for some time to come. The trouble over the electric lights came to a head this morning when all the lights were cut off. The gas works are being repaired and are not running, so the people have to depend on lamps.

### Veterans Fight Each Other.

Milwaukee, Wis., Oct. 31.—Patrick Coughlin, a veteran of the Soldiers' home, was literally slashed to pieces by Thomas Kelly, another inmate of the home. The men were comrades and roomed together. Coughlin, who was in the navy during the war, found fault with the way in which Kelly took care of the room during his watch, claiming that it was not shipshape. The two old men then fought with each other, and Kelly was the victor. His revenge for being put in the guard house he stabbed Coughlin with a long-bladed pocket knife. Both men are over seventy years of age. Coughlin is dying and Kelly was arrested on a warrant from the federal court.

### METHODIST BISHOPS.

Law-Makers of the Church in Session at Toledo, Ohio.

Toledo, O., Oct. 31.—The bishops of the Methodist Episcopal Church of the United States are in session here. They are the law-makers of that denomination. Among those most prominently known are Bishop Bowen, who is the senior bishop and will preside, and Bishops Newman, Andrews, Fowler, Joyce, Merrill, Fitzgerald, Malahew, Foster, Vincent, Ninde, Hurst, Foss, Goodsell and Warren. Among the more important questions to come up in relation to the discipline of the church are the work for the national Methodist Episcopal conference to be held at Cleveland, strictures on amusements as prohibited by the discipline, admission of women to the conference, proposed amalgamation of the Epworth league and Society of Christian Endeavor, and the abolition of the itinerancy system. The following forecast seems to be made: That women will probably be admitted to seats in conference bodies of the church, that the Epworth league and Society of Christian Endeavor will not consolidate and that the itinerancy system of the church will be either abolished or such a move defeated by a close vote. It is doubtful if the discipline will be changed in regard to amusement strictures, but that there will be numerous modifications in the discipline. The bishops will also look after apportioning work in the various conferences over the United States for the coming year. Much interest is manifest all over the country in the work of this body.

### COLEMAN TAKEN TO JAIL.

Further Embezzlements Discovered Against the Fort Scott Cashier.

Fort Scott, Kan., Oct. 31.—J. R. Coleman, the cashier who robbed the State bank of this city of \$50,000, will be carried to jail to-day on a stretcher. Since the bank was wrecked he has been seriously sick, and he has been allowed to remain in his elaborately furnished bedroom under guard of a sheriff. Yesterday, when the bank receiver discovered a further shortage of \$3,500, public feeling focused against him, and the prosecuting attorney employed physicians to examine his condition, and submit an opinion as to whether incarceration would be fatal or not. There is a strong popular feeling against Coleman, the extent of which may not yet be known. The savings department of the bank was largely patronized by working people, who are distressed at the probable loss of all they possessed.

### Thinks There Will Be No Trouble.

London, Oct. 31.—Sir Charles Loe, K. C. M. G., Governor of British Guiana, arrived at Plymouth yesterday, having been recalled to England to confer with Colonial Secretary Chamberlain on the Venezuelan boundary question. Sir Charles was seen upon his arrival by a representative of the Associated Press, who sought to obtain his views upon the Venezuelan question, and to whom he accorded an interview. He said: "I have no idea there will be any serious resistance to the British demands growing out of the Uruguayan incident, as the Venezuelan government seems desirous of doing everything possible to repair any injury done to British subjects."

### Sugar Bounty Cases.

Washington, Oct. 31.—Representative Meyer and Col. Hill of New Orleans, representing the Louisiana sugar producers, were at the treasury department yesterday, and had an interview with Auditor Baldwin in regard to the sugar bounty claim cases. They asked for the specific rejection of two specific claims, one under the appropriation of \$238,000 on sugar produced before the repeal of the bounty act, and the other under the \$5,000,000 appropriation by the last congress, their purpose being to secure a proper basis for action.

## RULE IS A WISE ONE MR. DUNWIDDIE SAYS

LETTER CONCERNING THE Y. M. C. A. MEMBERSHIP.

The Associate and Active Members Have the Same Liberties and Advantages and the Regulation Has Kept up the Christian Character of the Work.

EDITOR GAZETTE: Will you kindly allow me a word of explanation regarding a matter about which there seems to be some misunderstanding. I refer to the rule of the Y. M. C. A. organization, that only members of evangelical churches, so called, are eligible to active membership.

This rule may seem somewhat strict to one who does not understand the reason of its adoption. When drafting the articles of organization of the Jamesville Y. M. C. A., the question arose in my own mind as to the expediency of so strict a requirement as adopted by the international committee, but on inquiry learned that this had been adopted as a safe guard, to insure the permanent use of property purchased for a Y. M. C. A. to that end. It was said that in the earlier history of the organization and before the evangelical test had been adopted, that in some instances, where the members not connected with any church came to have a majority; that the christian part of the work was wholly dropped and the building was turned into a mere club room, for a amusement only.

And in view of the possibility and of the fact that there was no assurance for those who desired to put their money into such a building and work; that if it would continue to be thus used, the prosperity if not the life of the association was seriously threatened.

To meet this objection and as a safe guard against any such contingency the rule was adopted that only members of evangelical churches, should be eligible to active membership and only active members could vote or hold office. And experience has amply justified the wisdom of the action thus taken. But the privileges of active membership go no further than that of voting and holding office, neither of which is attended with any advantages and the latter certainly involves a large amount of gratification. All benefits and advantages of the association are open to every member alike, whether active or associate. The rule then instead of being a narrow and unreasonable one, is a wise provision, insuring that a building thus erected, shall continue to be used for the purpose for which it was built, and in no sense debar any one from the fullest enjoyment and participation in all the advantages and opportunities for help which such a building and association affords. Yours, B. F. DUNWIDDIE.

### EMILY BANCKER IS COMING

Laughter and Jollity Will Reign at the Myers Grand.

Laughter and jollity will reign supreme at the Myers Grand when the queen of comedy, the sprightly Emily Bancker, assisted by her excellent support of well known players, will make her stellar appearance before a Jamesville audience as "star" in a successful comedy farce by Mrs. Musgrave, "Our Flat." Miss Bancker, by her phenomenal success the past three seasons can justly lay claim to the proud title of the foremost comedienne of the day. Blessed with a merry individuality that is spontaneous, she enters into the spirit of her work with an earnestness and abandon that becomes infectious. Manager Ryley has surrounded Miss Bancker who is herself a beautiful woman, with a bevy of lovely girls and a company in which she may well take pride.

### LIKELY TO FREE MRS. KANLEY

Woman Who Worked Here May Not Be Held at Chicago.

Mrs. C. K. Kanley, alias Mrs. Seeley, the woman who was going to make so much trouble for the Jamesville police because they arrested her here some time ago, may not be held by the Chicago courts. The Chicago papers say that Judge Hutchinson was told yesterday that three years ago the indictments were stricken from the dockets, with the understanding that they would not be reinstated unless Mrs. Seeley again began collecting for the home. She has not made collections for that worthy object, although she has had other fish in the pan, it was said, and a motion to quash the old indictments was made yesterday.

## WE KNOW ABOUT THIS

County Supt. Brown Was Terribly Weak and Nervous.

Took Dr. Greene's Nervura and is Now a Well Man.

Says He Feels Endowed With New Health and Vigor.

[From the Syracuse, N. Y., Herald].

"How can I get rest and strength when they are required?" This is a question that is daily asked by thousands of men and women who become so unsteady and nervous that when opportunity is offered for rest it does not come. With thousands this question seems to have been solved, and that permanently. It is by the use of Dr. Greene's blood and nerve remedy.

Among the very large number of business men of Syracuse who have successfully used Dr. Greene's Nervura is Charles D. Brown, deputy superintendent of the county poor, with an office in the Court of Appeals Library building, who at one time believed he would lose his mental faculties unless he had immediate relief from the nervous trouble from which he was afflicted, and the debility which followed.

MR. CHARLES D. BROWN.

In describing his experience, Mr. Brown said:

"I went home a short time ago thoroughly imbued with the idea that I had made by last visit to my office, and that my nervous system had become so shattered that I never would be fitted for business again. I was in such a condition that I believed an insane asylum was staring me in the face. I found it impossible to sleep or get any rest at any hour of the day. My wife and family became thoroughly alarmed and insisted on sending for the family physician. His calls seemed to be without result, and I believed that I was without help. Not so, however, for the messenger of health came through Dr. Greene's Nervura, which was recommended by a friend who had received great benefit from its use for only a few weeks. Having suffered in a measure from an attack similar to my own I believed that he knew what he was talking about, and so decided to try Nervura.

"The result in my case has been far beyond all of my expectations I can assure you. The benefits began to be apparent before I had finished taking the first bottle. Before this I had not been able to apply myself to my official duties, but day by day I began to experience a marked change for the better, and today I seem as well as ever. For some time I had to give up business entirely at times. I was wholly unfitted for any kind of mental action, and at one time thought that unless improvement came I would become a burden to myself and friends. Today, all of that nervousness has disappeared, that which the doctors could not relieve. With the improvement in my nervous system came better health generally and today I feel with new vigor and health thanks to the use of Dr. Greene's Nervura blood and nerve remedy. I would not be without it under any circumstances."

Mr. Brown says that it affords him much pleasure to recommend the remedy prepared by Dr. Greene, who, he considers, is a benefactor to mankind. Brown can be found at his office every day. He honestly and enthusiastically recommends it to others. We would say also, that this remarkable remedy is the prescription and discovery of Dr. Greene, of 35 West 14th St., New York City, who can in all cases be consulted free of charge personally or by letter.

## BIG FOOTBALL GAME TO BE PLAYED HERE

COLLEGE ELEVENS TO MEET IN JAMESVILLE.

Madison and Beloit Players Will Come on November 22—Line City Team Has Been itching For the Contest Which Has Now Been Arranged—Winners Will be State Champions.

Jamesville is to see a "really truly" football game, probably on Friday afternoon, November 22, between the elevens of Beloit college and the state university.

Beloit has been anxious to see her team pitted against the university boys, and if the Line City players will accept the terms the game will be seen here.

Although this seems a rather late date for the game, it is the earliest that can be arranged, as Captain Richards refuses to let his men play so hard a game as this will be, before the contest with Minnesota on November 16.

This game is for the football championship of Wisconsin, and as both institutions will have their best men on the field, it will be one of the hardest games of the season.

It will be the first regular college game ever played in Jamesville and the city ought to turn out the largest crowd of the season. Full arrangements for the game will be made next week.

### MISS SNITZLER MARRIED.

Nuptial Event in Chicago in Which Jamesville People Are Interested.

A wedding of interest to Jamesville people was celebrated Tuesday evening at the Sixth Presbyterian church, Chicago, the contracting parties being Miss Julia Graham Snitzler and John L. Mahin, of Muscatine, Ia. The affair was one of the notable events of Chicago's city. Miss Margaret Stewart, who is also well known here, having visited in this city a number of times, acted as bridesmaid. Mrs. E. H. Davies, of this city, was one of the wedding guests.

### What a Gentleman Said of Us.

It is indeed gratifying to know that our efforts in keeping shoe qualities up are appreciated by people. We overheard a man prominent in business here say to a friend a few days ago: "I am glad to see that the Richardson Shoe Co. are keeping up the quality in shoes. They certainly gain the confidence of the people by giving them most needed high grade shoes at reasonable prices." Remarks like this are not uncommon. Richardson Shoe Co.

### Hard Times.

You would forget all about the hard times if you had dropped into Back's this week and seen the number of boys from three to fourteen years of age that were made happy by selling their mother a suit and reefer for them, and then made them the present of a sled, which gives them a chance to save their pennies for something else.

### Fifteen Dozen Neckties.

Business has been good with us all week, and we propose to keep it coming. On Saturday we will place on sale fifteen dozen neckties, new goods, this week from New York city, that sell always for 35 cents; Saturday's reduction, only for 17 1/2 cents. As you notice the price is cut in half, but the ball must be kept rolling just the same. Rosenfeld on the bridge.

### Outing Flannels

We have just placed on sale fifty pieces of heavy, soft outing flannels in both dark and light colors, to sell at the popular price, 6 1/2 cents per yard. These flannels are well worth 8 cents, and at this price, 6 1/2 cents, we expect to close them out in a week. Bort, Bailey & Co.

### Business Men's Association.

A special meeting of the Business Men's Association will be held on Thursday evening, Oct. 31 at 7:30 p. m. A representative or the Willard movement will be here and present the matter before the association. A full attendance is desired.

## To Steady the Nerves

Is a task to the accomplishment of which narcotics and sedatives are inadequate. The effect they produce is paralytic. They destroy sensation without benefit to the nerves. Hostetter's Stomach Bitters, on the contrary, strengthens and soothes the nervous system. Overwork and mental anxiety weaken and relax it, and there is no more restful sleep than that which restores the system. Hostetter's Stomach Bitters, by restoring the system, restores the habit of blood, restores the appetite, improves the digestion, and promotes the assimilation of the food—two effects always consequent upon the use of the great stomachic. Failing strength is recuperated, a regular habit of blood restored, and appetite improved by the filters. Disease must be regarded as an exceptionally remote possibility by any one whose system has been thus reinforced. Malarial diseases, constipation, dyspepsia, rheumatism and kidney troubles are overcome by and prevented by this standard medicine, which has no peer among American tonics, and is in constantly increasing demand in Mexico, the West Indies and South Indies.

## PARADISE AND NORTH POLE.

Geologists Contend That Garden of Eden Was in Arctic Regions.

In an interesting and highly instructive article, Edward S. Martin reviews the numerous theories advanced by scientists in the endeavor to solve the perplexing problem as to exact location of the site of the Garden of Eden. After sifting the theories the writer concludes that the question is no nearer answered than it was 2,000 years ago, and that there are no present indications that the matter will ever be definitely settled by any man. To one of the latest and most ingenious theories Mr. Martin thus refers: The north pole will seem at first thought to the average investigator the most unlikely site on the earth for Paradise to have occupied. Nevertheless several sober and thoughtful books and pamphlets have been written in support of the north pole's pretensions. The north pole nowadays is bitter cold, but it has not always been so. Geologists tell us that the earth was excessively hot when it first began its course—much too hot to admit of the presence of any living creatures, except, perhaps, a salamander. As it grew cooler vegetation began on it, and then it began to be peopled, first with fishes, and then with birds and beasts; finally with man. The first spot on earth to get cool enough to use was the north pole. In the process of time it got too cold, but there must have been a long period when the polar region was the most comfortable part of the world. During this period, many eminent geologists believe, there existed around the north pole a continent now submerged, and that on that continent our progenitors were comfortable in their first home. It is known with entire certainty that the polar region was once warm enough for tropical vegetation to grow there. There was light enough, also, for such vegetation—abundant light, indeed, for all uses, and plenty for primeval man. Geology tells us that man might have lived at the north pole.

## A FAMOUS MAN'S MOTHER.

Thomas Wentworth Higginson's Beautiful Tribute to His Mother.

I trace to my mother's direct influence three leading motives of her youngest son's life—the love of personal liberty, of religious freedom and of the equality of the sexes, writes Thomas Wentworth Higginson. As to the more subtle and intimate influences they ordinarily came by contact, not by preaching. She always maintained that the younger children of a family had a much better chance for development than the elder, because they had more freedom to develop themselves. With her elder children, she always said, over-conscientiousness almost bore her to the earth; she felt personally responsible for every childish fault. She had been reared in the school of Locke, which regarded the human soul as blank paper, on which parents and teachers did all the writing. But her children were of strong and varied individuality, and she learned in time to study the temperament of each and be patient with its unfolding. Her whole formula of training consisted in these three things: To retain the entire confidence of her child, to do whatever seemed wisest, and to be patient. Her trust in Providence was absolute and controlling, as was her sense of the personality of the Deity. \* \* \* Most valuable of all her traits to her children, next to her quality of sunshine, was probably her absolute rectitude, the elevation of her whole tone, the complete unworldliness, so that no child of hers ever heard her refer to any standard but the highest. With all this was combined the conscientious accuracy in affairs, the exquisite nicety in all household details, which belong to the best of the traditions of New England.

## THIS DAY IN HISTORY

1517—Luther published his "Theses" at Wittenberg; beginning of the reformation.  
1861—Formation of the alliance of France, Spain and England which led to the Maximilian campaign in Mexico.  
1873—The Cuban filibustering steamer Virginian captured near Jamaica by the Spanish gunboat Tomado and taken to Cuba. The Virginian had been fitted out in the United States secretly, and left Kingston, Jamaica, Oct. 23, with a large party on board. The chief of the expedition was General Washington Ryan, an American residing in New York city. Ryan and the Cuban chiefs, Bembeta, Pedro Cespedes and Jesus del Sal, were summarily executed. Three days later Captain Joseph Fry of the Virginian, 38 of the crew and 12 Cuban volunteers taken on board were executed at Santiago. Out of 169 men in the party only 18 escaped punishment in some form. About 122 were killed. Many were young Cubans of worth and promise.  
1879—General Joseph Hooker died at Garden City, N. Y.; born 1814.  
1880—Jonathan N. Nussbaum, surgeon and oculist, died at Munich; born 1829.

## PERSONAL LIBERTY.

Throughout the country people are watching New York. The republicans of New York City have taken the ground that while the excise law is none of their making, it is essential to good government that it be enforced while it is the law, and that the question whether they want such a law should be left to the people of New York city and of every other community to decide severally for themselves. They have declared for local option, or the right of every city to decide for itself whether it shall authorize the sale of liquor on Sunday under certain restrictions as to hours and other circumstances. And upon that platform they appeal to all citizens of New York who desire good and honest government to support their ticket and especially their candidates for the legislature.

The Tammany democrats have taken the same ground for local option, with the additional promise in effect that if again restored to power they will not enforce the law whether it is repealed or not, meaning, of course, they will enforce it only against those who are not the subservient tools of Tammany.

Both parties are weakened by schisms in the form of independent organizations. There is a good "government" faction, which will not support the republican ticket, because the republican platform and nominations are not good enough to suit them. And the County Democracy is still waging its old war on Tammany. Moreover, the republican situation in the city is embarrassed by the attitude of the republican party of the state at large upon the question. For the adoption by the state convention of the plank offered by Warner Miller as an amendment to the reported platform, committing the party throughout the state to the maintenance of the existing excise law, cut right across the position of the republicans of New York city in favor of local option. So that, so far as their attitude on this question appeals to popular support in the city, it is neutralized by the declared position of the party throughout the state. This is unfortunate, for the contest involves issues of such serious import to every community that its outcome is awaited with anxious interest.

Neenah means to show the rest of the state that reform is possible. The youngest of her citizens are to be taken in hand first, and taught that cigarette smoking is deadly. One after another all the sins on the Neenah category are to be tackled, winding up with the profanity induced by General Doe's visit last summer.

The report that the Ashland News is to lose its editor is denied, but as long as the editor signs his name J. Mitchell Chapple instead of plain Joe, leanings toward a literary life will be suspected.

There wasn't money in Wisconsin to keep the state World's Fair building, but if any citizen cares to see it he can go to Kansas City, where it has been just opened as a club house and bar.

## Cost of Living in Paris.

An able statistician has been estimating the cost of living in Paris at the present time, and has compared it with that of forty years ago. He shows that in the fifties an average middle-class family could do with a budget of 10,000f, or £400 annually. That did not mean luxury, but it was sufficient for comfort, and required no economical engineering for the purpose of making both ends meet. Nowadays the case is different, and an official with a wife and three children dependent on 10,000f a year has to work miracles of saving in order to avoid getting into debt. Accordingly, in less than half a century, the conditions of life in Paris have been completely modified. It is no exaggeration, in fact, to say that prices have doubled, and with them has increased the desire for a more luxurious mode of living than that led by the average Parisian of the fifties. The statistician has revealed nothing new, but his figures serve to emphasize the fact that the French capital is the most expensive place of residence in Europe.

## Big Fire at Columbus, Ga.

Columbus, Ga., Oct. 31.—There was a fire in one of the most popular residence districts of Columbus yesterday. Five handsome residences and the Girls' High School building were burned. The stores were closed and all the clerks were fighting the flames. The fire was got under control about 2:30 p. m. Eleven buildings were destroyed. The loss was about \$35,000; insurance about half that amount.

## Indiana Coal Miners Strike.

Washington, Ind., Oct. 31.—Four hundred miners struck in Cable & Co.'s mines here because the screen used did not allow pay for nut coal. Operators say they will not accede to demands of miners, and men are equally determined not to return unless the screen is changed. Indications are that other mines may be affected in this section.

## Strikers Afraid of Cold Weather.

Springfield, Ill., Oct. 31.—The strike among the coal miners of this district that was agreed upon for yesterday did not materialize. Many of the men realized that cold weather was coming on and feared a condition of things where they would be idle and have no income.

## Fire in an Illinois Lumber Yard.

Keokuk, Iowa, Oct. 31.—The lumber yard, planing mill and dry sheds of Dickson & Bartlett at Hamilton, Ill., opposite this city, were destroyed by fire last night. The loss will be heavy.

Nowadays when women are trying to do everything it is not strange that many things are over-done. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too it might be different; but the woman who knows when she has done a day's work has yet to be born.

## Working in this way has manifold evils.

The most common trouble resulting from over-exertion, either mentally or physically, is constipation of the bowels, with all its attendant horrors. Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and, like the good little servants that they are, disposing of them effectually. Sold by druggists.

## THE SHIRT MY FATHER WORE.

[From the Chronicle.]

My father bought an undershirt Of bright and flaming red— "All-wool," I'm ready to assert, "Fleece dyed," the merchant said, "Your size is thirty-eight, I think, And forty you should get, Since all wool goods are bound to shrink A trifle when they're wet."

That shirt two weeks my father wore— Two washings, that was all— From forty down to thirty-four It branched like a leaf in fall. I wore it then a day or two, But when 'twas washed again My wife said: "Now 'twill only do For a little brother Ben."

A fortnight Ben squeezed into it, At last he said it hurt— We put it on our babe—the fit Was good as any shirt We never will wash it more while yet We see its flickering light, For if again that shirt is wet 'Twill vanish from our sight.

We are agents for the JABOS. Cannot shrink. Fits like a glove. You can get along without an overcoat. You can keep well without Jabos Hygienic Underwear, but it isn't so easy.

## LOWELL'S ANNEX.

## Y.M.C.A. WORK TO END WITH A GRAND RALLY

RESULT WILL BE ANNOUNCED SUNDAY EVENING.

Union Platform Meeting at the Congregational Church to be Addressed by the Brilliant Chicago Lawyer, Edwin B. Smith—Reports of the Campaign at That Time.

Janesville Y. M. C. A. campaign will end on Sunday evening with a meeting that will be a fitting finale for the week's work.

It will be held in the Congregational church and will be of interest in more ways than one, and the fate of the association so to speak, will be announced.

The principal speaker will be one Chicago's ablest men and brightest lawyers, Edwin Burrett Smith. Mr. Smith will tell about the actual results achieved by the Young Men's Christian Associations, in a business-like way, and will give the actual facts in the case. He is a member of the International committee of the Y. M. C. A., and is said by those who are acquainted with him to be a brilliant and entertaining speaker. Hon. John M. Whitehead, who has heard Mr. Smith, says he is one of the most interesting talkers he ever heard.

Pastors to Take Part Too

But Mr. Smith will not be the only speaker. The city pastors will preach on the subject at the various churches in the morning, and in the evening they will omit their regular services that they and their congregations can take part in the Congregational church meeting. Mr. Smith will conduct the session, and deliver his address, while the pastors will also have something to say in behalf of the work.

During this "platform meeting" the committees that have been at work about town will make their reports, and the first public announcement as to the success of the "campaign" will be made. The standing of the association will be explained in detail, and then we will know whether the association will live or die. The public is invited to attend this meeting, and it is hoped that the people will show their interest by attending.

The Work Still Goes On.

In the mean time the work of the committees is being prosecuted with all possible dispatch. The first ward was canvassed today by a committee of ladies, they being Mesdames B. F. Crossett, Mary Lawrence, C. L. Clark, Hiss, and Misses Flora Dunwiddie and Susie Jeffris.

The feature of the work last night was the parade of the men interested in the work and a good showing was made. The G. A. R. drum corps headed the procession, and a transparency was carried appealing to the citizens and merchants for aid. Dr. James Gibson was the marshal, and the line of march took in the business streets. The Y. M. C. A. band did not take part in the parade, but played at the new building.

A \$25 check for the Y. M. C. A. was received today from Roundy Peckham & Co., of Chicago through W. H. Rose.

NO NATIONAL CONTROL SCHOOLS

Rusk Lyceum Debate Results in a Decision For the Negative

"Resolved that the public schools ought to be under government control."

That was the question before the Rusk Lyceum last night. The affirmative was in the hands of Messrs. Carey and Bliss while the negative was represented by Scott, Merritt, and C. Wilcox. The judges, Messrs. Golling, Sanborn and Norcross decided in favor of the negative. The subject for the next meeting is:

"Resolved that the Monroe Doctrine should be enforced with reference to Venezuela." This question is up to date and of interest to all business men. The debate will be conducted by some of the best debaters of the club. Visitors will be welcome.

City Has Accepted Superintendent Proudfoot's Offer of Storage Room.

Stearns has taken pains to see the members of the highway, street and bridge committee and they all favor the plan. Superintendent Proudfoot donates the use of the building.

## EARTHQUAKE SHOCK AT THE BREAK OF DAY

JANESVILLE BUILDINGS QUIVER AND TREMBLE.

Sleepers are Awakened by a Vibration That Seem: as if Caused by the Explosion of Giant Powder—Stories Told by Some Local Observers.

Janesville had her full share this morning of an earthquake that shook the whole northwest.

All over town houses quivered. The worldly and the sober-minded agree that it was no imaginary shock.

Eight minutes past five the first demonstration came. There was an interval of twenty seconds between the first and the second, but the first was much more severe. Nearly everybody describes it as an undulating movement rather than a simple vibration.

People in parts of the city remote from one another compared notes during the forenoon and found their experiences were very similar. C. I. Sloan, out in Harmony; J. G. Rexford, in the first ward; F. F. Pierson and E. B. Heimstreet, on North Main street; Rev. W. H. Wotton, on Madison street—these and many others whose homes are as widely separated, told the same story.

"When the first shock came I must have been asleep," said Rev. Mr. Wotton. "I dreamed with the greatest distinctness of being on the deck of a ship and feeling it pitch under me. Then I awoke and found that my bed was undulating as if somebody were under it. The head was rapping against the wall, although when it this morning I found the space between the wall and the head board to be fully an inch. The shock was so severe that my wife insisted there must have been an explosion of giant powder somewhere."

The three story brick building in which Heimstreet's drug store is located, swayed so as to wake and alarm all the occupants.

F. F. Pierson, two doors away was sleeping with his head to the west. The sway seemed to him to be from north to south, for it rolled him perceptibly.

Many people felt the shock. At the hotels the guests hurried down the stairs. P. J. Mout said the movement was strong enough to make his water pitcher dance. J. H. Dower's family felt it as did also Chief Acheson, who lives next door. Officer Hogan noticed the shock, as did also Thomas Bowles and dozens of others.

Waiting on Salisbury.

London, Oct. 30.—The United States ambassador, Thomas F. Bayard, who has been visiting Sir John Pender, will return to town Thursday and will start for Scotland next week. He will probably be away from London during most of the month of November. The stories about Mr. Bayard delaying his departure owing to his expecting the Marquis of Salisbury's reply to the note of the United States regarding Venezuela are unfounded.

## BIG PICTURE SHOWN TO BOWER CITY FOLKS

"CHRIST BEFORE PILATE" HERE ON EXHIBITION.

The Canvas is a Copy of Munkacsy's Famous Masterpiece That Was Bought by John Wanamaker For \$15,000—Striking Scene in Bible History Portra, ed.

There was placed before the Janesville public this afternoon under the auspices of the Art League a painting of great interest. It is thirteen by twenty feet—a mammoth canvas—and is a full-size copy of the famous painting by M. de Munkacsy, "Christ Before Pilate."

Three million people in Europe and America are said to have visited the original and engravings and etchings have made its outlines familiar. The original was bought by John Wanamaker of Philadelphia for \$115,000, but before it left Paris a copy was made by C. Mc C. Brown and his associates in the Atelier of Carolus Duran. This copy is the one now shown in Janesville.

The picture portrays Christ as brought before Pilate to receive his sentence.

The high priest, Caiaphas, prefers the indictment with inflexible vindictiveness and fanaticism, cheered on by the rabble who demand his death, while Jesus, though a prisoner, shackled, tortured and awaiting his sentence, rises like a figure of light above his accusers, only to intensify their hatred.

Each figure on the huge canvases stands in its proper place, and not only its dramatic effect, but its historical bearing are so clearly portrayed that an explanation is almost superfluous.

TRAVELS OF YOUR BLOOD

Your Blood Travels Through Your Body in Two Continuous Streams.

It Starts From Your Heart and Passes Through Your Kidneys—What is The Kidney's Part and How They Perform it—What These Two Streams Have To Do With Health and Sickness

Blood is made by your digestive organs. Your heart pumps it all over your body.

It contains food, heat and nourishment, which it gives out as it goes along.

This is the first stream. It is rich, red, bright, and runs through blood vessels called "arteries."

When it has given out all its food and life, it takes up in return all the waste matter it can collect, and starts back to where it came from.

This is the second stream. It is dark colored, unhealthy, poisonous. It runs through blood vessels called "veins."

It takes the shortest cut to your kidneys, for your kidneys are waiting to filter it.

When it reaches them, they filter out all poisonous matter and expel the poison from your body.

Then the blood goes on to the liver and lungs, to get fresh food and heat, after which it begins its journey all over again.

But: When the kidneys don't filter the blood, it passes on just the same, and then, instead of leaving food and life wherever it passes, it leaves behind it poison and disease.

This is what makes you sick: Impure blood.

This is what makes impure blood: Sick kidneys.

So long as the kidneys are well they will filter the blood.

When they are sick they can't, and that is the long and short of it.

So that, when your kidneys are sick or when you have rheumatism, gout, anemia, chlorosis, neuralgia, nervousness, loss of ambition, tiredness, depression, sleeplessness, backache, etc., you may easily get well by curing your kidneys.

For all those symptoms are symptoms of blood diseases. All of them are caused by the kidneys not properly filtering your blood. All of them can be cured by taking Dr. Hobb's Sparagus Kidney Pills.

If you have eaten Asparagus, and of course you have, you must know the action it had on your kidneys.

Dr. Hobb's Sparagus Kidney pills are principally from Asparagus, but the active principle of the root has been obtained by a special process, which makes one dose of the pills equal to ten or more dishes of the vegetable.

Dr. Hobb's Kidney Pills cure all kidney diseases and all injuries to the kidneys.

They also cure all blood diseases, and this when "blood purifiers" have no effect.

They renew the kidneys, and the kidneys give you pure clean blood.

You feel the effect at once, in a sensation of new life and strength, fresh energy, cleared complexion and freedom from pains and aches.

Dr. Hobb's Sparagus Pills are for sale by all druggists or will be sent by mail prepaid on receipt of price, 50 cents per box.

Write for valuable pamphlet "A Filter for Your Blood" free on application to Hobb's Medicine Co., Chicago or San Francisco.

Lack of Harmony.

"How are you and your wife coming on? Do you quarrel as much as ever?" asked a mutual friend of a Texas husband.

"Just about the same."

"Tell me, candidly, did you and your wife ever agree about anything? Were you ever a unit on any subject?"

"Yes, once."

"When was that?"

"About three years ago the house caught fire and we were unanimous on getting out of the house as soon as possible, but otherwise we have never harmonized."—Texas Sittings.

How He Would Do It.

"There's that baby yelling again!" he exclaimed angrily, as he threw down the evening paper that he had been trying to read.

"The poor little thing has reason to be fretful," replied his wife, apologetically.

"Why, what has happened to it?" he asked.

"He's just cut a tooth," she explained.

"Well, for heaven's sake put some court-plaster on it, then," he advised.—Chicago Evening Post.

She—Huh! All the money on earth wouldn't have tempted me to marry such a thing as you.

He—Eh? Then why did you marry me?

If the Baby is Cutting Teeth.

Be sure and give that old and well-tried remedy Mrs. Weston's Soothing Syrup for children. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

The healing properties of Dr. Witt's Witch Hazel Salve are well known. It cures eczema, skin affections and is simply a perfect remedy for piles. C. D. Stevens.

TO-DAY WILL SETTLE IT.

Big Prize Fight Likely to Take Place at Hot Springs.

Hot Springs, Ark., Oct. 30.—Corbett, Brady, Joe Vendig, and Secretary Wheelock of the Florida Athletic Club are all under arrest here and in the hands of the local authorities, hence the attorney-general cannot get service on them now and take them from this county for trial, as he contemplated doing. Officers from this county, armed with warrants for Julian's and Fitzsimmons' arrest, are now doubtless with that twain somewhere in Texas piloting them toward Arkansas. As soon as the train crosses the line into Arkansas the warrants will be served upon them, and they will be prisoners of Garland county officers, and when Gov. Clarke's sheriff at Texarkana proceeds to serve his papers he will find that his warrants are not good. The governor has been tripped, and the only way remaining for him to stop the fight is that of military interference. It is not believed he will use the military. The only thing that will prevent the fight, it seems, is the failure of Fitzsimmons to get here and make satisfactory his stake money. It was given out tonight that the fight would not take place on Nov. 1, as previously announced, but on some day next week to be agreed upon and named after the arrival of Fitzsimmons and Julian. A large circus tent has been secured for the occasion, which can be put up in two hours and will accommodate 15,000 people. The feeling here is that the fight will surely take place if Fitzsimmons arrives, as the governor's only chance of preventing it is to prevent Fitzsimmons from getting here. To-day will settle the question.

Indiana Baptist Convention.

Terre Haute, Ind., Oct. 30.—There are 300 delegates at the Baptist State convention which began a three days' session here yesterday. The convention is really four conventions, that of the Sunday School Association, the missions and the Baptist Young People's Union, besides the church convention. A committee has reported a new constitution which is to be passed upon today and which is intended to bring all these interests into one State organization. State Superintendent Ogle of Home Missions reported receipts in excess of expenditures and that forty churches were aided during the year by the board. The total receipts were \$6,179. In addition the superintendent raised \$2,300 for the payment of debts on churches.

Big Crowd at the Durrant Trial.

San Francisco, Cal., Oct. 30.—The close of the arguments for the defense in the trial of Theodore Durrant yesterday was marked by the greatest crowd that ever fought for admission to a murder trial in this city. The sheriff and his deputies were not able to control the mob, and a requisition was made on the chief of police for a squad of twenty men. One of the jurors arose and informed the court that he would never enter the room again if he were compelled to fight his way through such a crowd. Attorney Deuprey was so weak from the effects of his recent illness that he addressed the jury while seated.

Michigan Forest Fires.

Camden, Mich., Oct. 30.—Word reached here late yesterday afternoon that the forest fires which had been burning in the marshes and meadows near Montgomery, in the southern end of this county, had reached such dangerous proportions that the town was in great danger of being wiped out. The alarm over the situation has become so great that, with the high winds blowing, it is feared the fire cannot be kept from the town itself. The business men have closed their stores and gone to fight the fires, and every able-bodied man in the place has turned into a fireman.

## THE STRAYED REVELER.

As she flows up the mountain side  
The valley is still;  
With gay companions racing wide  
In vain pursuit of her.

In every tangled copse they seem  
To see her streaming hair,  
And where the wild white lilies gleam  
Her face a lily there.

But, laughing, hand to side to still  
The beating of her heart,  
Tiptoe upon the lonely hill  
She stands, with lips apart.

The gay rout passes, and there falls  
A silence in the place;  
Again the cuckoo softly calls,  
The watchful squirrels race.

Then, like a sigh among the trees,  
A wind is softly heard,  
And, like a leaf blown down the breeze,  
There darts a songless bird.

For one swift moment then she slips  
Into a world apart.  
She thinks of mold upon her lips  
And dust about her heart.

—Frank Tooker in Century.

## THAT INTERVIEW.

We were in a parlor car on the Canadian Pacific, 40 miles out of Moose-jaw, and westward bound. I met three civil engineers, in the employ of the company, at Winnipeg, and we were chattering it to Vancouver.

"Not half bad looking," said Parkin under his breath.

"Deuced fine looking girl," said Graham, with an admiring glance in the direction of the star passenger.

"Clean built and well groomed," muttered Clarke critically. "I wonder how she talks."

I had been regarding the young woman carefully. She was very pretty, but that was not alone what caused me to transgress the rules of good breeding by staring hard at our charming vis-a-vis. Was it fancy? At any rate I could have sworn that, as her eyes met mine over the top of the book, there was an expression in them which said as plainly as words could have conveyed the idea, "I desire to communicate."

It was like a flash, this gesture of the girl across the way, and possibly I might have been mistaken. Could she have been simply tossing back a stray lock of the golden sheen that enveloped her handsome head? Perhaps—but then, that glance.

"Let's go and smoke," said Parkin rising and making for the smoking compartment.

"I'll join you in a moment," I said, and my companions filed out. As they disappeared down the aisle I cast a guarded glance in the direction of the young woman. She had dropped the book to her knees and was leaning forward slightly. One white hand lay on the plush covered arm of the seat, the other still separated the leaves of the magazine. Her lustrous eyes were gazing straight at me. Her lips, parted slightly, seemed about to address me. Surely there could be no mistaking the situation, but still, I reflected, it was well to be guarded in such matters. Having filled my cigar case from a box in my grip, preserving meanwhile what I have always flattered myself was an air of indifference, I made a move to rejoin my companions. Then, with a quick motion of the body, a nervous gesture of the hand, she spoke.

"I beg your pardon," she said. "I—er—that is—will you grant me a moment's conversation?"

Ah, the voice was not disappointing—quite the reverse I thought—well modulated, subdued, ladylike, in a word, but unmistakably American.

"I shall be profoundly honored," I answered, approaching the plush throne of my fascinating neighbor.

"Pray sit down—er—that is—if I am not detaining you," she went on, with the sweetest smile in the world, indicating at the same time a seat opposite her own.

"Coolest cheek I ever encountered," was my silent reflection, but I sat down and awaited developments.

"It is so—er—such a difficult matter to approach," she began in a queer sort of way. "I wish we knew each other a little better, you know."

"Heaven send the opportunity," I spoke with all the gallantry at my command. "Lost her purse—wants to borrow money—father a minister in Montreal, and all that sort of thing." I thought, and then kicked myself for harboring such an idea. "If I can be of any possible service," I said, "I shall be charmed."

"Sir," she replied, with an appealing gesture, "you are able to render me an immense service—if you will. But stay—of course you consider my addressing you in this manner an unpardonable impertinence. I am an American, you know," she continued, with a quaint little pride in the saying of it, "and (with a touch of heroics) a business woman."

"Pardon me," I ventured. "A lady can address a gentleman under almost any conceivable circumstances."

"Will you, then, accept my card," she proceeded, offering a tiny slip of cardboard. I took it and read the inscription. "Margaret Stanford, Special Correspondent." In the lower left hand corner was printed in larger type the name of a well known San Francisco paper.

"Ah, I have heard of you," I remarked. "I never had, but then it is the proper thing to say to a newspaper woman. She likes you all the better for it, although satisfied that you have lied."

Miss Stanford smiled graciously. "That was nice of you," she said quietly, and then, without more ado, went at the heart of her dilemma.

"Do you know the crown prince of Austria?" she began.

"No—I left Vienna when only 4 and—"

"Oh, please don't frivol," cried my little friend from Frisco. "It's too serious a matter."

"What? Knowing the prince or not knowing him?"

"Both," she replied, with an air of exasperation. "But listen. The Crown Prince Ferdinand of Austria is on this train. His car is a special in the rear of

ours, and he is touring the Rockies. I have been sent to obtain an interview with him, but my card has been returned twice by Count Somebody-or-other, who is one of the suite. To all intents and purposes the prince has refused to see me."

"The idiot," I ejaculated—"er—I—mean—the man must be insane."

"No," said Miss Stanford, ignoring my remark, "he's been talked to death, that's all. I overheard your conversation and discovered your profession. You are a newspaper man."

"True," I said, "but if the prince will not receive you he certainly will not listen to my request."

"Here is a plan," went on my journalistic friend. "I must see the prince. It's absolutely necessary to my future. I am determined to talk to him. There is no one else in this part of the car but ourselves. Suppose you forced an unwelcome attention on me—what should I be most likely to do?"

"You'd run away, wouldn't you?" I hazarded.

"Run where?" she gasped. "Where should I run to?"

"Into the next car, by Jove," I answered, catching the daring idea.

"That's it." And the girl from Frisco literally danced in her seat with delight. "Don't you understand—the prince is young, he is chivalrous—even hot headed, they say. If you will pursue me in to the next car I will be your friend for life. Will you do it?"

She sat there with both hands extended toward me in an attitude of supplication. I saw Parkin coming down the aisle from the smoker in the rear end, and witnessed the astonishment on his face. He ducked out again as silently as a ghost.

It was risky business this chasing women into prince's caravans, but still it was business. Lord, if I could only get that royal Austrian to punch my head, that and the story leading up to it would sell like a new Yankee toy in the Strand. It was a good enough thing to take a chance on.

"All right," I said. "Go on."

Like lightning she was off down the aisle, past the smoking compartment, where my Winnipeg friends were awaiting my arrival, and into the rear coach. Three piercing shrieks uttered as she disappeared brought a crowd of foreign notables to her rescue, and I was unceremoniously hustled off the platform by one of the biggest of the lot. The next instant I was struggling desperately in the arms of those three engineers from Winnipeg, who swore I had suddenly gone insane and wanted to telegraph my friends. It took me half an hour to explain matters to them and to the conductor, whose indignation passed all understanding. Then Miss Stanford emerged, leaning on the arm of a stiff backed dignitary of the Austrian court, who bowed her into our car with profound ceremony.

"Shake hands," she cried, her face flushed with excitement and satisfaction, "shake both hands, kiss me if you want to. I've got it—the best story that ever was printed."

Somewhat I always thought that Miss Stanford forgot to print the best part of the story. And this is the whole truth about that interview with Ferdinand.—Arthur James Peglar in St. Louis Republic.

## Early Use of Gunpowder.

War destroys, and at the same time is the incentive for the creation of new things. War and iron are inseparably linked together. The discovery of gunpowder caused a complete revolution in the manufacture of iron. The mixing of sulphur, saltpeter and coal as a toy had been known for a long time. Hence, to speak of the discovery of gunpowder in the fourteenth century only refers to the application of powder during that century for the purposes of war. To credit the Monk Bertold Schwarz, or Black, with the discovery of gunpowder is incorrect. However, his investigations into the nature of powder and its constituents for use as an applicable force in guns produced a radical change in the then customary warfare, and from that standpoint Bertold Schwarz deserves to be recognized as the promoter of modern warfare.

Hundreds of years before Schwarz's time the Chinese used gunpowder. The invention of field guns is credited to the Chinese Emperor Vitey, or Wut-i, who lived 140 years before Christ. During the eleventh century the Tartars learned the use of gunpowder from the Chinese. The Arabs acquired the knowledge of gunpowder from the Tartars and are said to have used cannon at the siege of Lisbon in 1147. The Greek fire was invented in 668 A. D., and besides setting fire to the enemies' ships and cities was used to shoot leaden balls out of metal cannon. Marcus Gracius, who lived A. D. 1204-1261, describes gunpowder as a mixture of two pounds of coal, a pound of sulphur and six pounds of saltpeter.—Iron Age.

## Razors of Ancient Days.

If man at the very beginning was hirsute, when did he afterward yearn to get rid of at least a portion of his hair? That brings us down at once to shaving. At first the hairs on the jaws and chin must have been plucked out singly. Could a process of this kind, carried out during immeasurable periods, have produced a comparatively beardless race, as are our Indians? If man shaved first with a shell or a bit of flint, his sufferings must have been intense. Prehistoric men in Great Britain, Ireland, France and Italy used bronze razors, for we find them today. Generally these razors had a tang, with a hole in the tang, so that they could be suspended. The razors are rounded on the edge and resemble in shape those of the Chinese.—New York Times.
